🚀 PROJECTS

Expense Tracker App:

Developed a comprehensive Flutter-based expense tracker app to enhance personal financial management.

Implemented Firebase Authentication for secure user sign-in and registration.

Utilized Firebase Firestore for real-time data storage and retrieval, ensuring seamless data synchronization across devices.

Managed state efficiently using the Provider package, facilitating reactive UI updates and data flow.

Integrated Shared Preferences for local storage, enabling persistent user settings and offline capabilities.

To Do App

Developed a Flutter app for task management with Firebase for authentication and real-time data synchronization.
Used Provider for efficient state management and Shared Preferences for persistent local storage.
